Raccoon Ski Tools was created to offer quality products with high standards to the ski men.
Without compromise we have created products and selected others among the best worldwide companies.
Every single product is extensively tested under extreme working conditions.

We know that satisfied customers are the basis and motivation for our future product development as well as further innovations.

Neither the highest quality nor the precision of RACCOON Ski Tools products is ever compromised or sacrificed in favor of higher production volume!

BRUSHES

Different types of brushes for
different uses.

Our oval brushes are made in
Italy with natural components
and for professional
performance.

BRUSHES

Oval Brushes are made with three different type of bristles:

- brass
- horsehair
- goat

The base of the brushes are made of wood and the number of bristles inserted is high and close together in order to guarantee the best final performance.

Made in Italy

BRASS
2cm bristless
RSTS001

GOAT
1cm bristless
RSTS003

HORSEAIR
2cm bristless
RSTS002

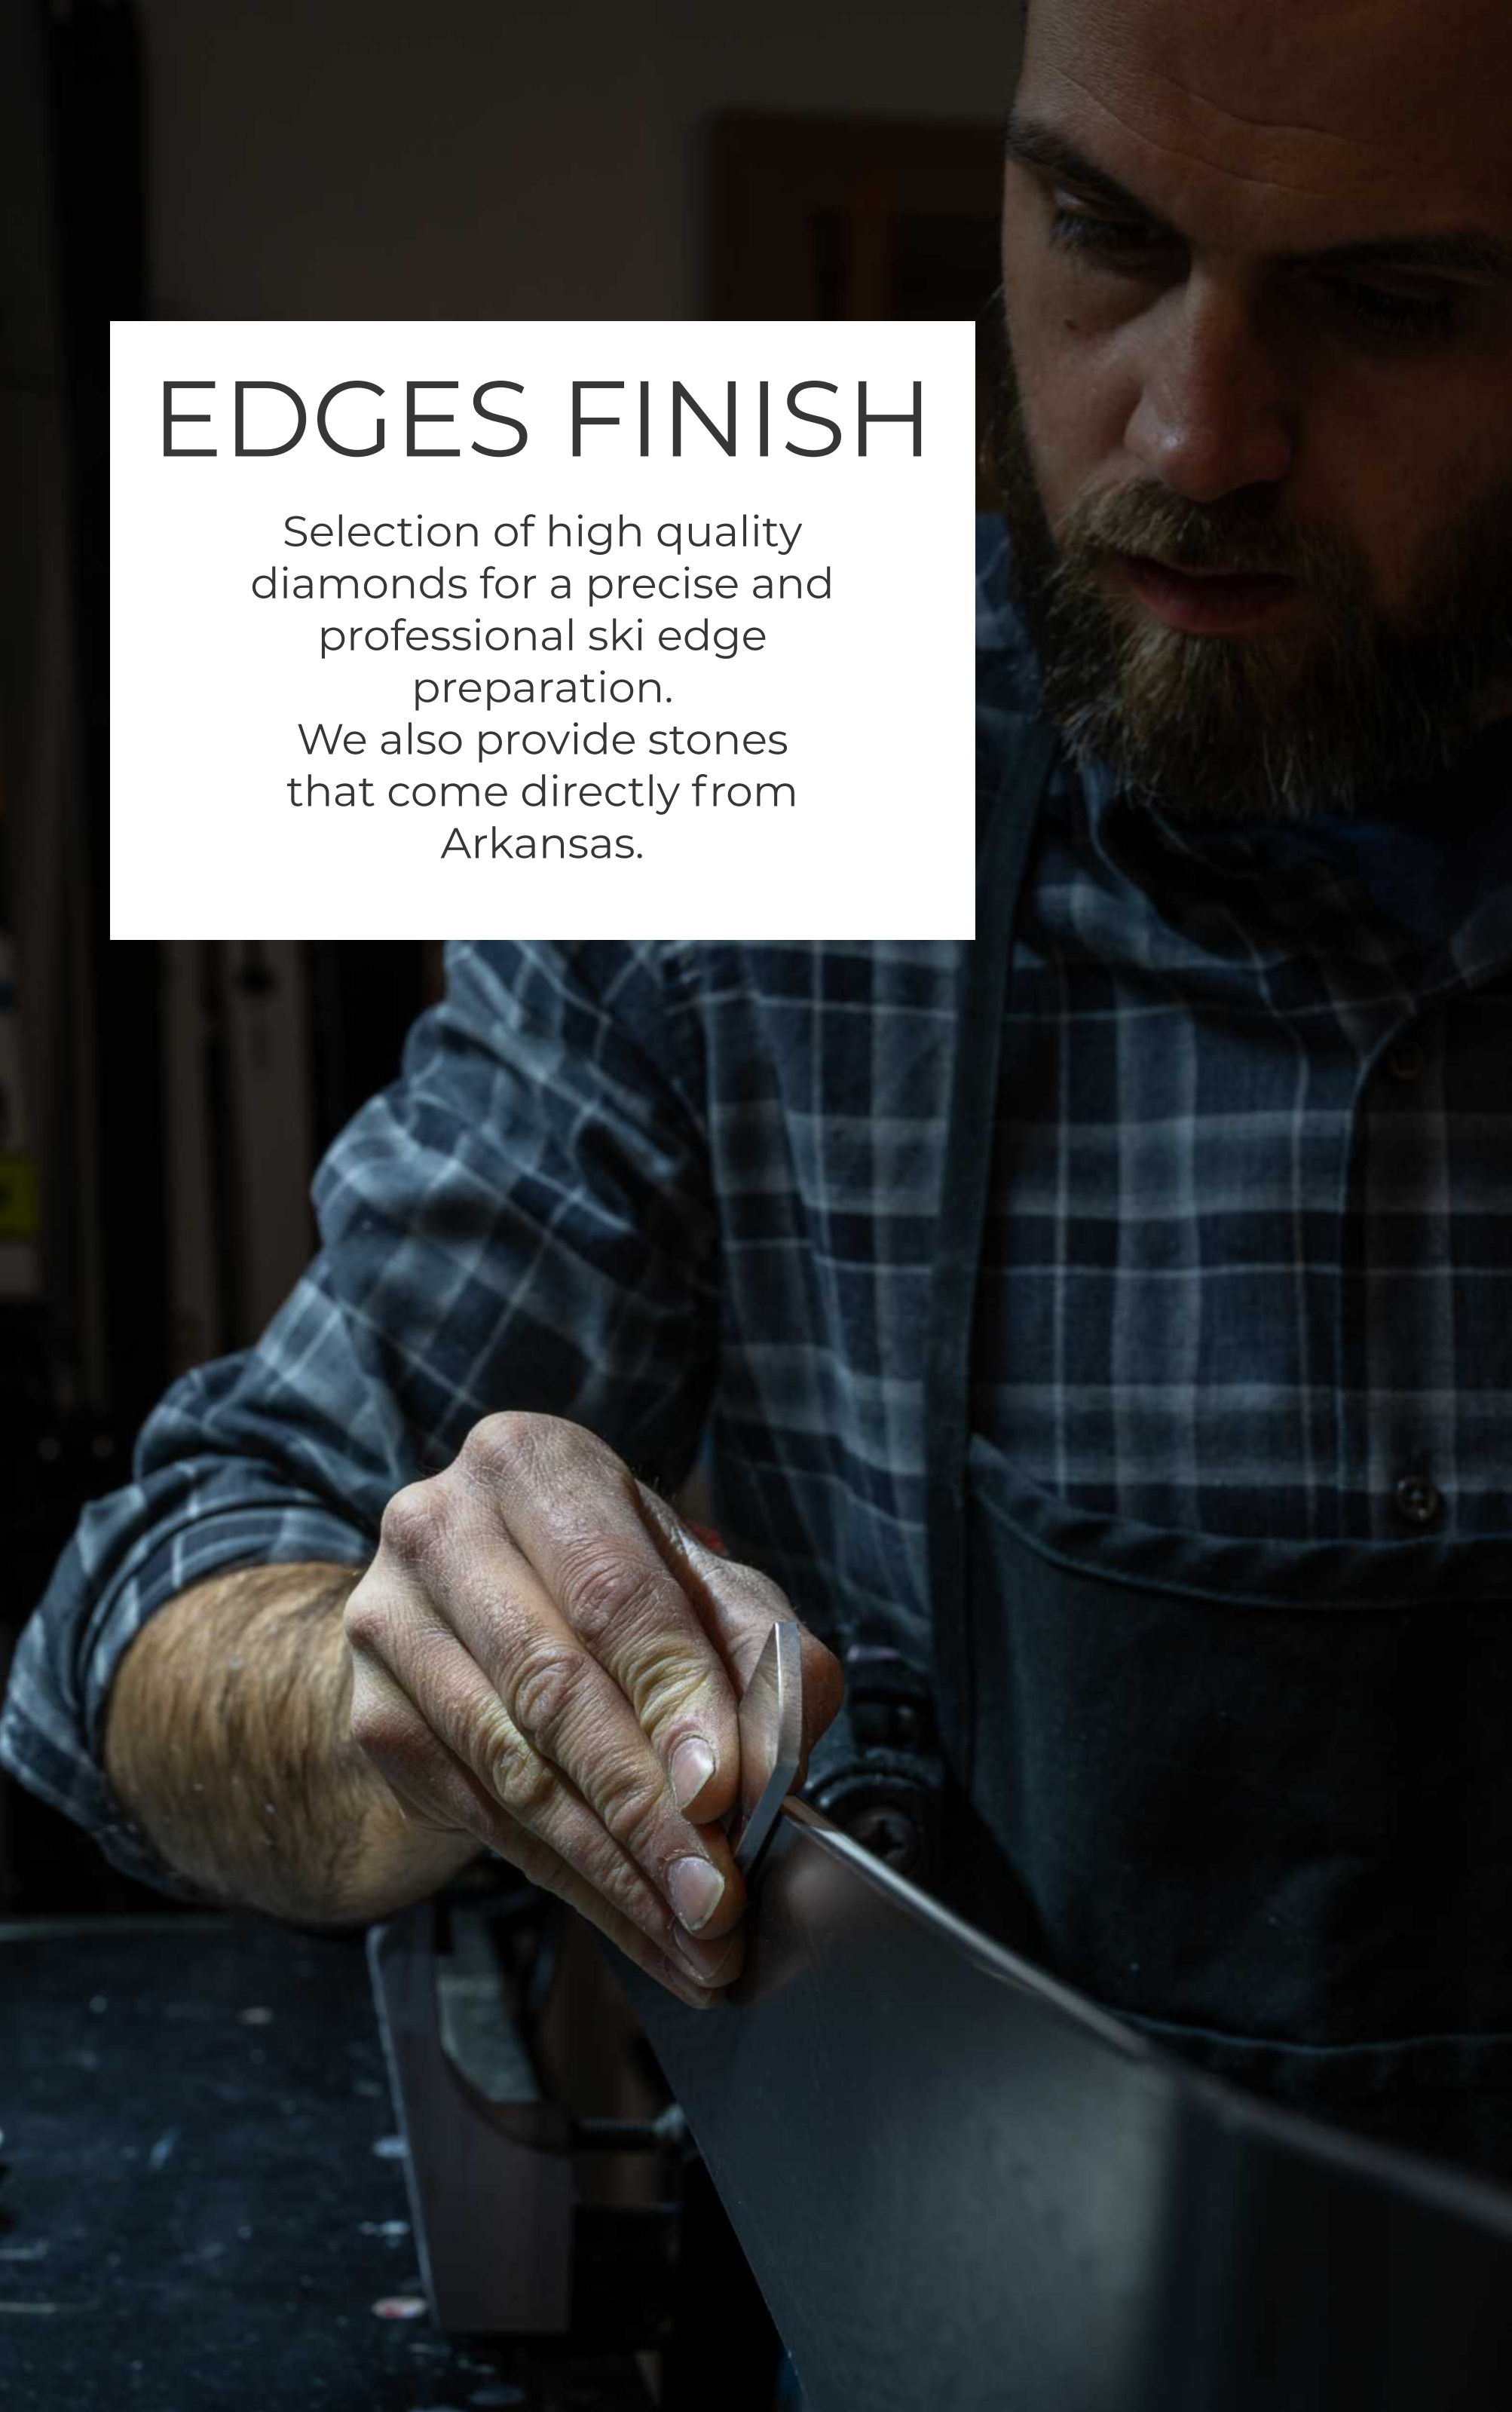

IRON
4cm bristless
RSTS006

Iron brushes are used for speeding up the ski base, to improve the performance.
